The right Option for you, your business, your family, your lifestyle!

## Certified Pedorthist Bridge

The POT to Pedorthic pre-certification bridge program is designed to provide the POT student with the balance of the competencies required for completion of Level One of the Pedorthic Precertification Program. This includes competencies in Shoe Modification and Patient Assessment Skills.

The Bridge Program, in conjunction with the POT Program, meets all competency requirements of the Level One completion. Candidates for pedorthist certification can attain the ABC or BOC Pedorthist credential through successful completion of Levels 1, 2 and 3 of a CAPE approved pre-certification pedorthic program, passing the Pedorthic Board Examination and completion of 1000 hours of clinical experience.
